Getting Emergency Information to Woodbridge Residents…

It's a Matter of Public Safety.

► Woodbridge Township Expands "Reverse 911" Emergency Notification System to Include Cellular Phone Numbers

The **Woodbridge Township Office of Emergency Management** and **Office of Information Technology** are expanding the Township-wide "Reverse 911" emergency communications telephone alert system.

Currently, cellular or Voice over IP (VoIP) phone numbers are not in the Woodbridge Township "Reverse 911" database. While most Township residents with "land-line" or "home" telephone numbers are listed in the Emergency Management database and receive timely emergency information, a growing number of residents rely primarily on a cellular phone.

We want to make certain that if there is an emergency, cellular phone users will get information ASAP… and reaching residents on their cell phone is simply the best way to provide timely — and perhaps life-saving — information.

If you would like to be contacted on your cell phone, VolP phone or TTY/TDD system, <u>you must register those phone numbers</u> with the Woodbridge Township Office of Emergency Management. Please note that the service being offered is for Woodbridge Township residences and businesses only.

Because with the right preparation… an emergency doesn't have to be a disaster.

Sincerely,

John E. McCormac, Mayor
Woodbridge Township

TOWNSHIP OF WOODBRIDGE AUTHORIZATION FORM FOR REVERSE 911 CELLULAR / VoIP / TTY / TDD NUMBERS

Please fill out the information below if you wish to add your cell phone number to the Woodbridge Township "Reverse 911" emergency alert telephone communication system.

You may register multiple phone numbers to the same address… just be sure to submit each number separately (1 number per form). The phone number you registered will be called only if the address you register is affected by an emergency event.

Mail completed form to: Office of Information Technology
