Mobile Health Services Unit!

### What should I know?

- ⇒ [Social determinates of health](#) are inclusive conditions tied to the areas where we live, work, recreate, and age. These factors can influence health related behaviors, impact access to healthcare, and cause other disparities.
- ⇒ Transforming the delivery and nature of how healthcare is obtained directly intercepts inequity gaps, and promotes improved [long-term health outcomes](#).

### Why is it important?

- ⇒ Mobile health clinics help reduce barriers in access to healthcare and provide more equitable [Community-based approaches](#) for preventative screening measures to ensure long term sustained wellness.
- ⇒ The new mobile health unit is an innovative way to bring healthcare to our community! It also addresses needs identified during our local community health assessment. Click [HERE](#) to learn more!

### How can I get involved?

- ⇒ The Mobile Health Unit will visit Township Senior Centers and Senior Residential Housing Communities, Municipal libraries, Community Centers, socially vulnerable areas of the community, public concerts, farmer's market, festivals and other events!
- ⇒ Learn more about the Township's Department of Health and Human Services [HERE](#)

### Reminders!

- ⇒ There is always something to do in Woodbridge! Keep up-to-date about Township "[News and Announcements](#)" to learn more about what's happening in Woodbridge and where you might find the mobile health unit on the road!
- ⇒ Want to learn more about what else makes Woodbridge a leader in connecting health and sustainability? Watch the Greenable Woodbridge TV Show [HERE!](#)
